**THE EVOLUTION LIE**

THE NEANDERTHAL MAN AND OTHER FORGERIES OF THE HISTORY OF MANKIND

## THE SENSATIONAL NEW DISCOVERY OF THE HISTORY OF MANKIND

The best-selling author Zillmer documents numerous sensational, so far suppressed discoveries and finds documenting that the anthropogenesis must be written anew. Numerous finds from the Stone Age are obviously by far younger than so far asserted. The skulls of Neanderthal man and of people from the Paleolithic age must be made »younger« by as much as 27,000 years to the age of a few thousand or even hundred years. The so-called »oldest Westphalian« from Paderborn-Sande became almost the »youngest Westphalian« from one day to the other because he is just 250 years old. An expected multitude of convincing proofs that have not been discussed among scientists illustrate an entirely different image of our origin. Zillmer documents: the history of mankind must be rewritten.
